FREIGHT CAR DATES

Painting - Freight cars painted every 7-10 years (repainting date stenciled on car)

Re-weighing – 30 months after building (15 months for composite cars) and every 30 months thereafter

Weigh stencils – Repainted if 300 lbs change (500 lbs for refrigerator cars); light weigh + load limit - capacity

Repacking – Every 12 months (most repacking and inspections performed on-line)

Brake Service – Stenciled on brake cylinder (date and location)
